Series 1 – Electromechanical Controls

- 2 or 3 Pole Output Contact
- U.L. “Limit Control”
- U.L. “Motor Control”

One of Warrick’s first products, Series 1 electromechanical controls offer 2 or 3 pole output contacts with 16 amp rating. These versatile controls can be configured for single level service, differential control, low water cutoff (with manual reset or lock out capability) control and many other functions.
